LOS ANGELES

Revolutionary to its kind, Articles of Society has adopted a unique role in the premium denim industry as the first brand to offer consumers superior jeans at an affordable price. The company launched in 2012 after recognizing this missing element in the denim market and refusing to compromise quality for value.

With its headquarters based in downtown Los Angeles, Articles of Society uses the same high-quality fabrics, fit standards and craftsmanship as its contenders, whose jeans retail for up to four times the Articles price. As veterans in the denim industry with priorities to Hudson, Antik Denim, Theory and Vince, the Articles team brings a wealth of insider knowledge and practicality to the business, lending the company a significant edge over its industry peers.

Articles of Society made its first statement with the Mya Skinny; an original fit whose popularity inspired multiple styles and growth within the collection. Symbolic to the brand is the signature gel A embossed into the back pocket of every Articles jean – a visual testament to the company's mission to offer classic, quality designs that are always on trend.

Since its launch, Articles of Society has taken the denim market by storm, selling at major retail locations across the world and garnering the attention of industry professionals and experts. In pursuit of cultivating a unique and influential brand, Articles has committed itself to transforming the denim industry from the inside-out. The Brand satisfies a fashionable, budget-conscious generation with denim that is cutting-edge, versatile, and above all iconic.

Pin 14: Comfortable doesn't have to mean boring. It can be cute too! I love my new @WILDFOX sweatshirt that I got on sale from @HautLook (the best deal), it's so cozy! I paired it with @articlesofsociety distressed jeans and a beanie from the men's section of @Target! Added my @Converse high tops (which I got from the outlets) to finish off my look. Xoxo, Alexa
